 Evaluator's Estimate :
- E. SESSION SUMMARY:

The target has a wheel in motion. The target has a structure about the size of a tank. A pipe is present. The site is on green land with many trees. A simple zig zag fence is can be found here. A bi-level structure/building which is both dark and light is at this location. Long linear thin lines illustrate the target. This site can be noisy and some roads or highways are in the area. At times, people are busy at this site. The place has a natural aesthetic quality, man made features, and a change of seasons.

Iced to the gunnels, a huge laker loaded with iron ore for South Chicago steelworks squeaks through the Soo Locks in late January. Shipping normally freezes to a halt from mid-December to April. To help the region's wintertime economy, an experimental
